

Martin City Collects 1,500 Food Items For GAP

Congratulations to Martin City K-8 students and staff who recently reached their goal of collecting 1,500 non-perishable food items for the Grandview Assistance Program (GAP). This was accomplished through their student and staff collection competition launched on September 6. The project was a part of the school's continued community service activities.

GAP has provided emergency assistance to Grandview C-4 School District and City of Grandview families for basic needs since 1992. At this time GAP is critically low on their stock of can and dry food donation items. Donations are needed throughout the year. Non-perishable food items can be dropped off at the GAP office (1121 Main Street, Grandview-(816) 761-1919) Monday-Friday (9:00 am-12:00 pm & 1:00-3:00 pm) and at the View Community Center during normal business hours. You can learn more about GAP and their current food needs at www.gapcares.org.
