

Having trouble switching between students in Parent Portal?

If you are using Internet Explorer 9 try turning on compatibility mode. 

To do this, go to the login page. <https://sis.csd4.k12.mo.us/>

Click on the “compatibility mode” button  in the address bar.

Your compatibility button should turn blue. 

You only need to do this once; your browser should remember the change.

Now log in as you normally would, the menu to change students should work now.

For question please call your child’s school. <http://www.csd4.k12.mo.us/schools.html>
